

Marion Leboyer

France

Prof. Marion Leboyer is a Professor of Psychiatry at the University of Paris Est Créteil (UPEC), head of the Psychiatry and Addictology Department (DMU IMPACT) at Hôpitaux Universitaires Henri Mondor and Director of the “Translational Neuro-Psychiatry Laboratory” (<https://www.imrb.inserm.fr/en/teams/m-leboyer-2/>) at Institut Mondor de Recherches Biomédicales

(INSERM U955).

Since 2007, she has been the director of the “Fondation FondaMental” (www.fondation-fondamental.org), a non-profit organization supporting research and innovation in mental health. She is also a member of ITMO neurosciences, cognition, neurology and psychiatry (AVIESAN), representing psychiatry and sits in several international advisory boards (Neuron ERA NET Cofund, Bipolar Roadmap Initiative, executive committee of ECNP, Director of ECNP Immuno-Psychiatry network).

After studying medicine at the University of Paris-Descartes, she completed her research training at the genetic laboratory of Professor Ken Kidd at Yale University (New Haven, USA) and then completed her thesis in neurosciences in 1990 at the University Pierre et Marie Curie. In 2021, she received the prestigious French award “Grand Prix de la Recherche Inserm” (<https://presse.inserm.fr/en/inserm-2021-prizes-science-more-mobilized-than-ever-to-serve-health/44300/>).

Author of more than 900 international publication (H-factor 100), since 2018, she is part of the highly cited researchers (Clarivate : <https://publons.com/researcher/4093800/marion-leboyer/>). She wrote several books and has given more than 100 lectures in national and international congresses. Her most recent work explores the immuno-inflammatory pathways involved in psychiatric disorders.
